2022-2023 SCHOOL YEARLY NOTIFICATION

As a result of recent federal legislation (Asbestos Hazard Emergency Response Act (AHERA)), each primary and secondary school in the nation is required to complete a stringent inspection for asbestos and to develop a plan of management for all asbestos containing building materials. St. Peter's Lutheran School has a goal to be in full compliance with this law and is following the spirit, as well as, the letter of law. As a matter of policy, the school shall continue to maintain a safe and healthful environment for our community's youth and employees.

In keeping with this legislation, St. Peter's Lutheran School was inspected by EPA accredited inspectors and samples were analyzed by an independent laboratory. Based on the inspection, the school prepared and the state approved a comprehensive management plan for handling the asbestos located within its building safely and responsively.

St. Peters has a management plan in place, and Federal law requires an inspection every three years after that.

Short term workers (outside contractors- i.e., telephone repair workers, electricians, and exterminators) must be provided information regarding the location of asbestos in which they may come into contact. All short-term workers shall contact the lead maintenance person before commencing work to be given this information

St. Peter's Lutheran School has a list of the location(s) type(s) of asbestos containing materials found in the school and a description and time-table for their proper management. With prior notice a copy of The Asbestos Management Plan is available for review in the school office. Copies are available at 25 cents per page. Questions related to the plan should be directed to Tracy Niemcek, MacNeil Environmental, Inc., Madison, WI. At 800/232-5209 Ex: 623, or by contacting St. Peter's School.
